

Networking event

Nordic Electric Bus Initiatives

Save the date - September 1-2, 2015

Welcome to a seminar on Nordic Electric Bus Initiatives at Lindholmen Science Park, Gothenburg, Sweden on September 1-2, 2015. The seminar is a co-arrangement by Forum for transport innovation and Nordic Energy Research.

The purpose of the seminar is to bring together representatives from public transport authorities (PTAs), traffic operators, manufacturers and the academia for a networking event with the aim to;

- Share best practice from cases where electric buses have been implemented
- Share general knowledge regarding the potential of electrification of buses for public transport
- Share expectations and address common issues/hurdles – how can PTAs navigate during this technology shift?
- Connect representatives and stakeholders from Nordic cities that either have experience from the field or plan to adopt the new technology

Participation including lunch and dinner is free of charge.
